DORCHESTER, DORSET DT2 9SN

# Stratton The Bricks Beat Map

Length of Beat 1/2 Mile  
1 Rod Only

### Directions from Dorchester

Take the A37 towards Yeovil. After 2.5 miles from the bypass roundabout you will pass under the railway bridge, shortly after take the slip road left into Stratton.

### Directions From Yeovil

Take the A37 towards Dorchester. After about 12 miles you will pass through the village of Grimstone. Continue on the A37, for about 1.5 miles, and take the second right turn into Stratton.

Drive through the village for about 75 metres - on your right will be a concrete track with a sign saying 'Stratton Dairy' - at this point turn left down a short track. Drive through the gate and you will find the parking area 50 mtrs on your left.

### The Beat

Double bank throughout the beat, however the right hand bank has been prepared throughout and you are welcome to fish from either.

The beat's upstream and downstream markers are the two footbridges.

### The Fishing

Waders are helpful but not essential. This Beat is the delightful original course of the Frome, reduced in size by the carrier which was built to divert water to the Mill. It is narrow, but deceptively deep, with tight twisting bends giving for a very sporting stretch of water.

# Fishery Rules

**1. Method of Fishing** - Please use barbless or debarbed hooks at all times. Any fly can be rendered barbless by simply flattening the barb with a pair of pliers.

Chalkstream - Upstream dry fly and nymph only.

Stillwater - Single hook, maximum size 10, long shank

**2. Size and Catch Limits** - All wild fish should be returned to the river unless injured, the release should be without delay and gentle as possible.

Chalkstream - To help preserve and develop our head of wild trout we encourage a 'Catch and Release' policy, however if you would like to take one stocked fish home for supper then please do. Cease fishing when 15 fish have been caught.

Stillwater - As per your day ticket allocation.

**3. A Booked Fishing Day** - Your Fishing beat entitles you to fish from first light to last on the day of that booking.

**4. No Dogs** - There is livestock in many of the fields around the fishery, so in consideration to them and other users no dogs at all please.

**5. Fishing Huts** - There are a number of fishing huts on the banks for you to use, please do so, but do take all rubbish home with you.

**6. Parking & Access** - Most Beats now have a designated signed parking area - please use them only, and make sure that

there is passing room for agricultural vehicles. Follow the route marked on your map to your Fishing Beat, and stay close to the river at all times. If you pass through gates then please ensure they are correctly shut behind you.

**7. Licences** - Every Fisherman should have an Environment Agency Licence and carry it with them. The onus is on the fisherman to purchase this and it is available either from the Post Office or online.

**8. Fishing Returns** - We try to keep as accurate a record of catches as possible, when your day is complete please either post, email, or fill in the returns form online.

**9. Left or Right Bank** - all descriptions of left or right bank in this booklet refer to the side when facing downstream.

**10. Beat End Markers** - Each Fishing Beat is marked by a small white sign, with green writing stating the Beat Name and 'End Marker'. Please do not fish beyond this point.

## 11. Wading

Chalkstream - You are welcome to wade on any of the beats however on some it is essential to fish the beat effectively - this is mentioned in the beat notes.

Stillwater - No wading in the lakes at any time.

**12. Gutting of Fish** - No Gutting at the Fishery.
